

CUBIC

Example of CUBIC composition with black bilaminar base. It is possible to use transparent or mirror glass panes to make the composition more creative (available on request).

The CUBIC collection was born from a simple idea, which helps you to easily change the exhibiting space, using the same material. CUBIC collection is the youngest and most dynamic part of POD Displays production.

ART. MO

Colours:
black, gold, silver,
red, white, yellow.

Weight: 15 gr.

This table helps you to calculate how many pieces you need for the composition you prefer.
e.g. the configuration of the drawing is composed by 5 base elements and 7 elements in the height.
The crossing point between the two columns shows you how many pieces you need.
(96 clamps, 42 side panels, 40 base panels, 35 back panels).

Calculation table of necessary materials for a modular configuration.
